#### 2 HEALTH RECORDS

The **Health Records** tool will provide you with access to components of your immunizations and test results, along with several tools you can use to store various pieces of your health history.

The information within the tool can be accessed in two different ways. On the **Home** dashboard, you can click on the tiles in the centre of the screen.

Welcome to MyHealthPEI! Access parts of your personal health informatio images below.	n, log your own health details, and explore in	formation about health and wellbeing. Begin b	y clicking on the drop-down menus or the

Height, Weight & BMI	Inhaler	Medical Procedures	Allergies

Or you can open the Health Records dropdown on the left-hand navigation bar and select from the below list:

The following tools are currently available in Health Records:

- Immunizations
- Lab Results (Coming Spring 2025)
- Health History (Coming April 2025)

#### 2.1 IMMUNIZATIONS

The Immunizations tool allows you to see a record of vaccines you received in the province that have been digitally recorded in PEI's Immunization Registry. This includes vaccines you received from public health nursing, community pharmacists, primary care providers, as well as vaccines received while in hospital, long-term care or at a post-secondary institution in PEI.

From the Home dashboard screen, you can access your immunizations in two ways. You can click on the tile in the centre of the screen labelled **Immunizations**, or you can open the **Health Records** dropdown on the left-hand navigation bar and select **Immunizations** from there – both will take you to the same screen.

### At the top of the immunizations screen, you will find some helpful information, including links to the Government of PEI Child and Adult Immunization pages.

Vaccines are important for children and adults to help them stay healthy and to protect the vulnerable around them. Find out what vaccines are recommended by going to the PEI Adult Immunization page or the PEI Childhood Immunization page.

The list below will include immunizations given in hospital, by PEI Public Health Nursing and Pharmacists, but will not include an immunization you were given outside of PEI.

Click under Date Range to view your immunization records for different time periods.

Also, toward the top of the page, you have the option of choosing a specific date range to view by selecting the **Date Range** dropdown and selecting your preferred timeframe.

You may have multiple pages available to view, which you will see at the bottom of the list of immunizations. To move between the pages, please use the **Previous** and **Next** buttons.

To view a specific immunization record, click anywhere on the record you wish to view. On the right-hand side of the screen, you will see a popup open where you can also view additional immunization information.

You can also add or view comments. It is important to note that the comments you add are *only visible by yourself* unless you choose to share your record. Select the **Add or View Comments** button and you will see a popup open on the right-hand side of your screen. Here, you will see an area where you can view or type in your comments. If it is a new comment, once you're done typing click on **Add**.

#### 2.2 LAB RESULTS (COMING SPRING 2025)

The **Lab Results** tool allows you to see a record of blood tests, urine samples or other laboratory test results that you received in the province from Spring 2025 onward. Please remember that most test results will be visible on MyHealthPEI 4 to7 days after your test is processed and completed. Some test results may take longer to appear in MyHealthPEI as the lab test may take more time to process or it may need to be sent out of province for processing.

From the **Home** dashboard screen, you can access your lab results in two ways. You can click on the tile in the centre of the screen labelled **Lab Results**, or you can open the **Health Records** dropdown on the left-hand navigation bar and select **Lab Results** from there – both will take you to the same screen.

Once you are on the Lab Results screen, a list of all of your available results will appear.

Q Search by Test Name		

You may have multiple pages of results available to view, which you will see at the bottom of the list of lab results. To move between the pages, please use the **Previous** and **Next** buttons.

To view a specific lab result record, click anywhere on the record you wish to view. On the right-hand side of the screen, you will see a pop-up open where you can also view your results.

Salicylate Level X	
1 of 1 results	
If this information was uploaded by your device or the PEI Health Record it cannot be edited.	
Date 16-Dec-2024 02:54 PM 1 2	
2.0 mmol/L	
Result 2.0 mmol/L	
Reference Range: 1-2	
Status Complete	
Abnormality -	
Comment Interpretation:	
Toxic Level: >3.6 mmol/L	

On each record, you will find the following information:

- Test name
- Date
- Reference range (the target range for the lab result as determined by the lab team)
- Status
- Abnormality (Crit = Critical, H = High, M = Medium, L = Low, blank means within the reference range)

If you have certain bloodwork completed on a regular basis, for example your A1Cs, you will be able to see a graph that tracks your results over time. To access this graph, click on your lab result record on the main lab results screen and the pop-up will open on the right-hand side of your screen. Here, you will see a graph populate, displaying your results for that test over time.
