2 Health Records

The **Health Records** tool will provide you with access to components of your immunizations and test results, along with several tools you can use to store various pieces of your health history.

The information within the tool can be accessed in two different ways. On the **Home** dashboard, you can click on the tiles in the centre of the screen.

Or you can open the **Health Records** dropdown on the left-hand navigation bar and select from the below list:

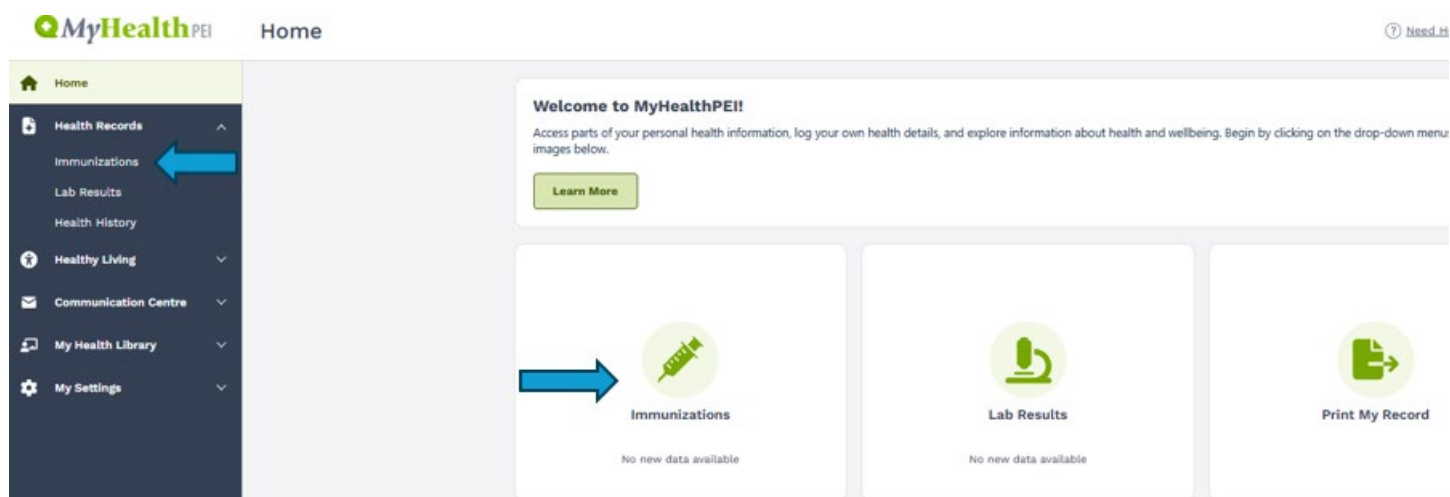

The following tools are currently available in **Health Records**:

- Immunizations
- Lab Results
- Health History

2.1 Immunizations

The Immunizations tool allows you to see a record of vaccines you received in the province that have been digitally recorded in PEI's Immunization Registry. This includes vaccines you received from public health nursing, community pharmacists, primary care providers, as well as vaccines received while in hospital, long-term care or at a post-secondary institution in PEI.

From the Home dashboard screen, you can access your immunizations in two ways. You can click on the tile in the centre of the screen labelled **Immunizations**, or you can open the **Health Records** dropdown on the left-hand navigation bar and select **Immunizations** from there – both will take you to the same screen.

Once you are on the immunizations screen, you will see a list of all of your available immunizations appear. You are able to sort your immunization information (ie. alphabetically by Trade Name, oldest to newest for Date Administered) by clicking on the small arrows beside each column name.

Vaccines are important for children and adults to help them stay healthy and to protect the vulnerable around them. Find out what vaccines are recommended by going to the [PEI Adult Immunization](#) page or the [PEI Childhood Immunization](#) page.

The list below will include immunizations you were given while in hospital or by PEI nurses, pharmacists or physicians but will not include an immunization you were given outside of PEI. Your immunization records are available in MyHealthPEI as soon as they are uploaded by individual healthcare providers. There might be a delay between when you received your immunization and when you see it here.

Click under Date Range to view your immunization records for different time periods.

Date Range All

You can also add or view comments. It is important to note that the comments you add are *only visible by yourself* unless you choose to share your record. Select the **Add or View Comments** button and you will see a popup open on the right-hand side of your screen. Here, you will see an area where you can view or type in your comments. If it is a new comment, once you're done typing click on **Add**.

The screenshot shows a 'Comments' popup window. At the top, there is a dark blue header with the word 'Comments' and a close button (X). Below the header, the main area is light gray and contains the text 'There are no comments available for this item.' At the bottom of the popup, there is a text input field containing the word 'Test'. To the right of the input field is a green 'Add' button. A blue arrow points from the input field to the 'Add' button.

To delete a comment, click the **Add or View Comment** button associated with the record. Click the **garbage icon (Delete)**. When prompted, click **Delete** again to confirm.

The screenshot shows the 'Comments' popup window with a single comment entry. The entry includes the text 'PEISTG Test2', the timestamp '03-Dec-2024 04:12 PM', and the text 'Test'. Below the text is the source 'Source PEISTG Test2 via MyHealthPEI'. To the right of the comment text is a blue arrow pointing to a trash can icon labeled 'Delete'. The popup has a dark blue header with 'Comments' and a close button (X).

Toward the bottom of the Immunizations screen, you will see a green box called **Related Information**. Here you will find a selection of links that provide you with further information on topics like immunization schedules along with links for booking your immunizations.

2.2 Lab Results

The **Lab Results** tool allows you to see a record of blood tests, urine samples or other laboratory test results that you received in the province from April 2025 onward. Please remember that most test results will be visible on MyHealthPEI 4 to 7 days after your test is processed and completed. Some test results may take longer to appear in MyHealthPEI as the lab test may take more time to process or it may need to be sent out of province for processing.

From the **Home** dashboard screen, you can access your lab results in two ways. You can click on the tile in the centre of the screen labelled **Lab Results**, or you can open the **Health Records** dropdown on the left-hand navigation bar and select **Lab Results** from there – both will take you to the same screen.

Once you are on the **Lab Results** screen, a list of all of your available results will appear.

Find blood test, urine sample or other results using the Search bar below. Most test results will be visible here 4-7 days after your test, but some special testing can take more than a week. You may see your results before your healthcare provider does.

Understanding laboratory test results can be hard without medical training. It's important to talk with your in-person or virtual healthcare provider so they can explain your results in the relation to your personal health. Your provider might need some extra time to talk with other members of your healthcare team before they can give you a full explanation.

Please Note: If you would like to zoom in to your lab results graph to show a shorter window of time (for example, results graphed at a weekly or monthly level), click on the graph and roll the scroll wheel of your mouse toward or away from you. If you are using a laptop that has a trackpad, click on the graph and use two fingers to move up or down on the trackpad. If you are using a mobile device or tablet, touch the graph and use two fingers, moving them apart or together to adjust the level of detail on the graph.

In the case of the above screenshot, you can see that there are 3 individual A1C test results. To view each result, you can use the **Arrow** button located on the top right-hand corner of the screen to move through each of your available A1C results.

To help you better understand your results, the result number itself will be colour-coded based on whether your result falls within or outside of the range of normal (“Reference Range”) determined by the lab team. A normal result will appear in **green**, while an above or below normal result will appear in **orange**.
